

# Nothing Too Much Just Out Of Sight

Paul McCartney

Nothing too much  
Just out of sight  
You say you love me  
If this is true  
The best thing to do  
Is to lye down beside me  
I said I love you  
Well nothing too much  
Just out of sight

Oh don't you want to be fair?  
When you went away  
In the twilight  
It was alright  
It was alright  
Alright

I love you  
I said I love you  
I thought you knew  
The last thing to do was  
To try to betray me  
The new morning light  
I'll never forget it  
Nothing much just out of sight

Twilight  
Out of my sight  
I was more than upset  
Nothing too much  
Alright

I can remember  
Your beautiful hair  
I can remember  
Why can't you take me there?  
Don't you try betray me?  
Oh wanna betray me?  
I was ready to test  
I was ready to test with the whites of your ribs

It was alright  
Alright  
Not nothing too much  
Just out of sight

Well nothing too much  
Just out of sight  
Out of my sight  
Beautiful hair  
I was really upset  
In the moonlight  
In the twilight  
Of the last night  
It was alright  
Alright  
Alright

Well nothing too much  
It's alright  
Just out of sight  
The last thing to do was to try to betray me
