

Same Love

Paul McCartney

If I give my love again to you, mm
Will it be the same love that we once thought was true?
Will it be the same love, mm?
Will we feel the same love?
Will it be the same love that you once made to me?

The love you made to me, the love you made to me
The love you made to me
The love you made to me, the love you made to me
The love you made to me

If it's nothing like the first time, we'll enjoy it right or wrong
Why keep referring to the worst time, when you've waited for so long?
Waited for so long?

Though it may not be as good as you
Well, still, it must be better than the pain that I went through

Will it be the same love?
Will it feel the same, love?
Will it be the same love that you once made to me?

The love you made to me, the love you made to me
The love you made to me
The love you made to me, the love you made to me
The love you made to me
