

I Ain't Good

Paul McDonald

Please allow me to get this off my chest
Please allow me to get this off my chest

I'm a heartbreaker baby in your dreams
Ain't got time for your make believe
Yeah, I'm new to your scene, but honey I ain't foreign
I can make my enemies for myself
Don't need you around here breaking my back baby
Faithless is in your name, but honey I've known that, uh huh

Shit, I ain't good for you now
And I'm tired of you fooling around
You were sweet like sugar, but you're a bitter pill
Funny how your loving just came and it went
We were good in the beginning, baby we ain't good right now
I was never good for you anyhow
Yeah, I was never good for you anyhow

So are you feeling it now in your scene?
Are you loving someone else other than me?
Are you letting them down in the same way you let down me?
Do you get enough time now with yourself?
Now that you ain't got my help
Are you running around town just itching for that feeling?
Don't you ever look back baby and miss that feeling?

I ain't good for you now
And I'm tired of you fooling around
You were sweet like sugar, but you're a bitter pill
Funny how your loving just came and it went
We were good in the beginning, baby we ain't good right now
I was never good for you anyhow
I was never good for you anyhow

Oh babe, but If I took you back things would never change
And if you had me back you'd never complain
No, no, no

I ain't good for you now
And I'm tired of you fooling around
You were sweet like sugar, but you're a bitter pill
Baby, funny how your loving just came and it went
We were good in the beginning, baby we ain't good right now
We ain't good

I ain't good for you now
And I'm tired of you fooling around
You were sweet like sugar, but you're a bitter pill
Funny how your loving it came and it went
We were good in the beginning, baby we ain't good right now
I was never good for you anyhow
Yeah, I was never good for you anyhow
Shit, I was never good for you anyhow
Please allow me to get this off my chest
Please allow me to get this off my chest
Please allow me to get this off my chest
Please allow me to get it off, to get it off, to get it off

Get it off, get it off, get it off
