

Rosemarie

Paul McDonald

I can't get a clear signal
Nightshade and milk thistle
High as a dog whistle most of the time
Slow motion, scene stealer
Lies like a faith healer
Don't need a good reason and won't even try

I could use you right here, baby
I could use you right here, close to me

Cracked yellow line painter
Flea market star sailor
Don't lose your kind way
And don't lose your mind, babe

I could use you right here, baby
I could use you right here, close to me
And I could use your light here, baby
I could use your light, Rosemarie

Don't lose your mind, babe
Don't lose your kind way
Don't lose your mind, Rosemarie

Every note bends over backwards
To imagine a new dream
Sing a song for everyone
And say a prayer for Rosemarie

I could use you right here, baby
I could use you right here, close to me
And I could use your light here, baby
I could use your light, Rosemarie
I could use you right here, baby
I could use you right here, close to me

Don't lose your mind, babe
Don't lose your kind way
Don't lose your mind, babe
Rosemarie
