## **Cover Me**

Cover me like a river Rushing deep with life Come to me like a lover Returning in the night You are Truth, you are strength You are Love and you are Light You are warmth, you are shelter You are all I have

I need you to surround me So I can breathe again I feel your kiss upon me Burning through my skin

Run to me like a brother When I'm wounded in the fight Stay with me like a mother I need you by my side Be my hope, be my prayer Be my watchman in the night While this flame dimly flickers Hold me in your arms

I need you to sustain me Through this darkest night I feel your fire within me Somewhere deep inside

Like an angel coming to me Like a healer, you renew me Like a fire you consume me Like a Saviour, you give me your life You've given me your life
