

I Do

Paul Stanley

Do you remember
When you used to say
We'll stay together
High enough forever
When now my tears falls down
Like pouring rain
Every time I think of you

Could it be that I was livin' in a dream
And now I face the truth, ooh
Every day I pray
You're coming back to stay
But 'til my prayers come true
I'll just tell a picture

I do
Make my wishes on the stars
I do
Always told you when you want
I do
Wait for us to start anew
Baby, I do

They say my broken heart
Will surely mend but
There's no pretending
This pain is ending
I write you letters that
I never send
Every time I think of you

I do
Spend my days in memories
I do
Wishing you were here with me
I do
Turn my darkest skies to blue
Honey, I do

Could it be that I was livin' in a dream
And now I face the truth, ooh
Every day I pray
You're coming back to stay
But 'til my prayers come true
I'll just tell a picture

I do
Make my wishes on the stars
I do
Always welcome when you want
I do
Wait for us to start anew
Baby, I do

I do, I do, I do...
