

Love Is

Paul van Dyk

Looking for a light that's there in front of you
Reaching out for something that's inside it's true
Can you see the light inside of everything?
Hold on through the night it always turns to day

Fighting with the tide
You'll never stop the change
So look up at the sky and simply drift away
Just to be alive there's so much to exchange
So open up your eyes and see what comes your way

Love is an ocean
So let's dive into the waves
Love is an ocean
In this feeling I am saved
And everywhere you look it's all around you
It will never go away
Love is an ocean
Won't you stay
Won't you stay

Love is an ocean
So let's dive into the waves
Love is an ocean
In this feeling I am saved
And everywhere you look it's all around you
It will never go away
Love is an ocean
Won't you stay
Won't you stay
