

3 Commas

Paul Wall

I'm tryna get three commas
Three of 'em
Two ain't enough

I got long money, that's the best kind there is
From a lifetime of grindin', straight handlin' biz
A whole lot of big bank, wife and two kids
I got everything I prayed for when I was a kid
And now I'm lookin' even further to the next stage
Set the GPS destination to "get paid"
Three commas, be clear, let me set the stage
Invest the pay, let the thousandaires flex away
The hard work multiplies as time goes on
And smart work intensifies if your mind is strong
It's not difficult to fault you when it's cars on chrome
But you gon' have to step it up to fly an Icon home
I'm talkin' house bought outright, you're damn right
But I remember we would struggle just to pay the lights
I made it further than I ever thought possible
So now I'm thinkin' 'bout the improbable, big B with three commas

I want them three commas (Three commas)
I gotta get them three commas
I need them three commas (Three commas)
And I'ma get them three commas
I want them three commas (Three commas)
I gotta get them three commas
I need them three commas (Three commas)
And I'ma get them three commas

My motivation came from my mama
A childhood full of trauma, tryna learn economics
I put in overtime while they was in they pajamas
Now life looks a lil' different behind two commas
I wonder what it'd look like behind three
I'm 'bout to double down and go see
Focus every ounce of energy on my decree
It's time for me to grind to the umpteenth degree
When you see me, you see a made man that stuck to the gameplan
I bought a gang of land while they was buyin' up name-brand
More than anything, it take hard work
I know millionaires that got it all from yard work
Smart work and teamwork, I gotta see it through
If I got three, the crew got at least two, so what it do?
I'm on the move, the moves are on cue
I'm workin' for that big B, I'm tryna become one of the few with three comma
