

Just Be Cool

Paul Wall

I'ma pull up at ya crib later on get dressed let's ride where we going don't ask me (Nothing)
You gon' ride and roll up the dope black and sweet reach back backwoods in the back seat
You good we can do our shit but you gotta be cool cause the whole world know my name
She say I'm smooth, I say I know, she think it's talk, I don't run game

Well it's the parking lot heartbreaker back in stride
Laid back in a lac dimepiece on my side
On I-45 going 75
It's kinda hard to find a girl I love more than my ride
So if I chose you to kick it baby come on wit it
Round trip to H-Town on a 1st Class ticket
Big smoking and sipping on 5 I'm tippin'
But no pressure to fit in, no we not trippin'
So when we flip around the city baby be cool
No filter no fake just be you
Just enjoy the moment, until it's thru
I could be anywhere but I'm here with you
And even though I'm worldwide and I don't come round much
I know just what to say that'll make you blush
And like a menu, me and you is a must
Just make sure you keep it all on the hush
You know what I'm talking bout

I'ma pull up at ya crib later on get dressed let's ride where we going don't ask me (Nothing)
You gon' ride and roll up the dope black and sweet reach back backwoods in the back seat

I had a girl I use to like she kinda looked like Eve
She didn't really like to smoke but she could roll up weed
She was fine and smart she coulda held my seed
Plus she was feminine as fuck and see that's all I need
That's really all I want, I like love and lust
But see I'm known so when we out it's all eyes on us
She was almost cuffed, almost had my trust
But see she fucked that up cause she talk way too much
And that's a no no
I had to let her go, had to cut her loose
To my future lady ay you need to know the truth
See we can keep it simple simpler the better
I'm talking smoke a blunt and just enjoy the weather
I like to handle business mix it with some pleasure
If you cool with that then we can take it to another level
But in the meantime get sexy for me
We gon' hit the city bout 8:30 this evening

I'ma pull up at ya crib later on get dressed let's ride where we going don't ask me (Nothing)
