Paul Weller

I never used to pray  
I never been to church  
But when I hear that sound  
It goes to my heart  
Straight to my soul  
Oh, I don't know  
Straight to my soul

If I've got a God  
It's in the stars above  
But when I get that sound  
Oh, it makes me strong

Feeling real  
Not a choice  
A melody strong  
An angel's voice  
And I find myself  
Find myself  
In awe of its truth

And when I go  
I go where I go  
As long as I have that sound  
I'm gonna go real slow

Straight to my heart  
Hey, I don't know  
Straight to my soul

Feeling real  
It's not a choice  
A melody strong  
An angel's voice  
And I find myself  
Find myself  
In awe of its truth

From the mountains high  
To the valleys low  
From the oceans deep  
To the sky so wide  
As long as I got that sound  
As long as I got that sound
