

Deeper Love

Paul Weller

We need a deeper love than this
We need a deeper love than this
We gotta find a way
We need to find our way
Feels like I'm floatin' on air
Feels like we're floatin' on air
We need a deeper love than this

We need a deeper love than this
We need a deeper love than this
We gotta find a way
We need to find our way
Feels like I'm floatin' on air
Feels like we're floatin' on air

You know we are strong enough
To give somebody love
You know we are strong enough
To give somebody love
You know we are strong enough
To give somebody love
(Your life) you know we are strong enough
(Has just begun) to give somebody love
(Turn) you know we are strong enough
(To face the sun) to give somebody love
(Your life) you know we are strong enough
(Has just begun) to give somebody love

We've gotta find a way
We need to find our way
We need a deeper love than this

(Your life) you know we are strong enough
(Has just begun) to give somebody love
(Turn) you know we are strong enough
(To face the sun) to give somebody love
(Your life) you know we are strong enough
(Has just begun) to give somebody love
(Turn) you know we are strong enough
(To face the sun) to give somebody love
(Your life)

(Your life) you know we are strong enough
(Has just begun) to give somebody love
(Turn) you know we are strong enough
(To face the sun) to give somebody love
(Your life) you know we are strong enough
(Has just begun) to give somebody love
(Turn) you know we are strong enough
(To face the sun) to give somebody love
(Your life)
