

So Quietly

Paul Weller

Hear the moment come
So quietly
Falling soft to loud
So quietly

We love always call
So quietly
Shadow in us all
So quietly
Can it come back round?
When all gets lost

Diving deeper into hearts
Making how of all parts
Can't take no
All disarray

I want prove that can let go of little things
The rise and fall, that a new day is offering
Under trees, feel the breeze, watch the light dancing
Oh oh oh

A daydream floating by
So quietly
Catch me fall and dance
So quietly
