

# True

Paul Weller

The days have gone now  
In this ghost town  
My shadow's falling  
Black sun goes down  
But who am I now?  
And what have I found?

I never said I could find  
Just what it means to be true  
I never said it was me  
I never said it was you

I kept walkin'  
Through the morning rain  
I hear the old sound  
Of voices calling me  
They ask who am I now  
And what I have found

I never said I could find  
Just what it means to be true  
I never said it was me  
I never said it was you

The moon stays bright  
The sun still shines  
Clouds will pass by  
The clouds will pass by  
Again

I never said it was right  
I never said it was wrong  
I'm only shining a light  
I'm only singing this song
