

Where There's Smoke, There's Fire

Paul Weller

Where there's smoke, there's fire
Where there's smoke baby, there's fire

Burning for you, I need your love
We fit together like a hand in a glove
The smoke is rising high, I know who is your loss
Take the water of your love to keep me calm

Where there's smoke, there's fire
Where there's smoke, there's fire

Switching fire and you're running up and down my street
Baby your love became me bee
Travis Austin when you move, flash lights mean trouble
You have to get to me so we can cuddle
I'm getting bigger and bigger, I'm gonna spread
I am grave in black, yellow than a marine

Where there's smoke, there's fire
Where there's smoke baby, there's fire

The fire consumed if we lit you up
I wanna love you 'till I get enough
But you can handle me and there is no joke
But your work gets out cause is a lot of smoke

Where there's smoke, there's fire
Where there's smoke baby, there's fire
Oh where there's smoke, there's fire
Where there's smoke baby, you know there's fire
Where there's smoke, there's fire
Where there's smoke baby, you know there's fire
