

Boring Enormous

Paul Westerberg

Our coffee laughs at us every morning
We always laugh at the choices we've made
And ask ourselves
How did it ge so early
We're boring enormous
Will they inform us
That up close we still look afraid
Boring enormous, it isn't for us to say

No longer in a hurry to get anywhere
Still don't care for your destination
No longer lead, you just let things happen
Boring enormous
Will you inform us
Just when and where you might run
Boring enormous, it ain't for every one

Here with my headache and cigars
My love for you is finally scarred
Moving vans and swollen hands
Leave their mark
I pledge allegiance to the sky
Above the only place I lie anymore

Faucet's been dripping for a year and half
Both of us tripping outside to play
One thing I love I can no longer stand
Boring enormous
Please just ignore us
Cause up close we're still far away
Boring enormous
Please just ignore us
Casue up close we look far away
Boring enormous
It isn't for us to say
