

Do You Really Have A Heart?

Paul Williams

Long ago and oh so far away
In the land of I told you so
Lived a man named you'll get nothing from me
Awful weak so he acted strong
And he never learned to get along
Yes he tried but of course he couldn't see

What he needs is a little understanding
A loving hand to guide him, bring him around
What he needs is a little human kindness
The man is lost and cryin', don't let him down

Do you really have a heart
Don't you think it's time you used it?
If you really have a heart
Try it out and do some good

In the land of get the other guy
To the south of it's not my fault
Lived a fellow a lot like you and me
Made believe he was mean and bad
Always laughed when he made somebody mad
Never goin' to let that happen to me

What he needs is a little understanding
A loving hand to guide him, bring him around
What he needs is a little human kindness
The man is lost and cryin', don't let him down

Do you really have a heart
Don't you think it's time you used it?
If you really have a heart
Try it out and do some good

Do you really have a heart
Don't you think it's time you used it?
If you really have a heart
Try it out and do some good
