

Here's Another Fine Mess

Paul Williams

Here's another fine mess I'm into honey
A little bit sad, it's a little bit funny
Sit and listen if you want to know the score
It's a story that you've probably heard before

Here's another fine mess I stumbled into
Sorry a state as I've ever been to
I'm a fighter but they got me on the floor
Don't believe I'm gonna take this any more

Wave goodbye, don't try to talk
What's there to say
The words are unimportant
It's the feeling we'll remember anyway
Wave goodbye, don't make a scene
Just let it go
Don't smother love in glory
Put an ending on our story
We're riding to the final round-up
This is where the old trail wound up

Here's another fine mess
And not my choosing
We loved for a while, you can't call that losing
If I knew our love was gonna end this way
I'd live it over and I wouldn't change a day

Wave goodbye, don't try to talk
What's there to say
The words are unimportant
It's the feeling we'll remember anyway
Wave goodbye, don't make a scene
Just let it go
Don't smother love in glory
Put an ending on our story
We're riding to the final round-up
So this is where the old trail wound up

Here's another fine mess
And not my choosing
We love for a while1 you can't call that losing
If I knew our love was gonna end this way
I'd live it over and I wouldn't change a day
Here's another fine mess
