

It's All Been Said Before

Paul Williams

Not my only love and not my first
These emotions have been well rehearsed
Who can satisfy a common thirst
Only a fool would try

Borrowed phrases that are mine to give
Stollen maybe but they're mine to give
Others felt it no one's meant it more
And it's all been said before

For the moment let's be lovers
We have love enough to give
Take the moment make the memory
Cross you heart and hope to live

Lovers passion isn't wrong or right
Classic love affairs can last one night
Leave tomorrow as an open door
'Cause it's all been said before

Yes it's all been said...
