

Rose

Paul Williams

Time has been blessing me
And patience saved the best for me
Well I walked all alone
In the garden
Until I found a rose

Love working out for me
There's someone watching out for me
And I found something more to believe in
When I found a rose

Loneliness you've had your day
Now your season is ending
Emptiness be on your way
Now I'm going home

Going home
Where my sweet lady comforts me
Laughing as she runs to me
And I'm sure once again in the evening
That I found a rose
