

Trust

Paul Williams

'Tis a pity you've a stranger, I would like to know
You, show you around
Keep you warm and free from danger, share the
Secrets I have found to be true
In a city built on laughter, I have found you crying
Caught you in tears
Trust in me and from hereafter you'll be safe from
Sorrow, shadows and fears

Trust in me I will care for you
Share a grace with you, I'll make a place for you
For you and me, you and me
And if it pleases you, I'd be honoured to serve you
Take a stand for you
Always there with a loving hand for you
There if you fell, yes and I'll serve you well, serve
Thee well

In a world of hidden treasure, I have found the
Rainbow found it in you
Taking comfort in your pleasure, love will come in
Silence faithful and true

Trust in me, I will care for you
Share a grace with you, I'll make a place for you
For you and me
Trust in me, trust in me
