

7 Deadly Sins

Paula Cole

Lust, gluttony, greed, sloth, wrath, envy, pride
Lust, gluttony, greed, sloth, wrath, envy, pride

One: Lust

Dante defined lust as the disordered love of individuals
Thus possessing at least the redeeming feature of mutuality

Two: Gluttony

Overconsumption, overindulgence, and to gulp down and swallow
Anything to the point of waste

Three: Greed

Avarice, covetousness

It is a lot like lust, that is, a sin of desire
Plunges a man deep into the [?] of this world
It's an inordinate desire to acquire and possess
More than one needs

Your wicked ways

Your fall from grace

You never listened to your mother anyway

You never learned

You never learned

You never learned

Four: Sloth

A peculiar jumble of emotions, haha...

It's often a failure to do things that you should

There's mental sloth, spiritual sloth

The physical state of sloth, the absence of interest

Five: Ah, wrath

Anger, rage, hatred

People who fly into a rage always make a bad landing

Six: Envy

The most potent cause of unhappiness

To be sad or resentful towards the traits or possessions of someone else

Seven: Pride

The never-failing voice of fools

Love of self perverted to hatred and contempt for one's neighbor

Your wicked ways

Your fall from grace

You never listened to your mother anyway

Your wicked ways

Your fall from grace

You never listened to your father anyway

You never learned

You never learned

You never learned

Step by step, I'll get to heaven

Good deed by good deed, better

I'll work to make some leverage

I'll find my inside

Step by step I'll get to heaven

Good deed by good deed, better

I'll work to get some leverage

I'll find my inside

Step by step I'll get to heaven

Good deed by good deed, better
I'll work to get some leverage
I'll find my inside
Step by step I'll get to heaven
Good deed by good deed, better
I'll work to get some leverage
I'll find my inside
Step by step...
