

You will never know

Paula Cole

Sweet, sweet, little man
On the lake, on the boat, on your mind
Dream deep through the night
Take my hand and, my love, close your eyes

Forever in me
You will never know
You will never know
Forever, part of me
You will never know
You will never know

How deep is the sea?
Deepest and newest of blood in me

Forever in me
You will never know
You will never know
Forever, part of me
You will never know
You will never know

How deep a mother's love
Watching her babe turn to woman
Who loves you from afar?
Watching you walk easily

Forever in me
You will never know
You will never know
Forever, part of me
You will never know
You will never know

Forever in me
You will never know
You will never know
