Paulini

Sitting out here on your doorstep
Staring at my hot breath breezing in my face
I tried too many ways to tell you
There's only so much you can put a heart though
Until I finally break
I'm on the verge of something my ways
In the neighborhood of almost
And maybe it keeps you safe

I know you halfway loved me
When nearly the whole world dumped me
For a while it was enough
To keep me completely, completely
Completely, completely

Like the hand grenades we once threw
Close enough don't get you
Until it all explodes
We was just tryna stay true
Til what we had started to unravel
And I had to let you go

I know you used to love me
Couldn't wait for you to hold me
For a while it was enough
To keep me completely, completely
Completely, completely

Completely, completely
Completely, completely
