Forget That

Paulini

A love like this, so hard to find
Held it close, thought that you were mine
The way you talk, you capture me
Made me forget the bad
But then I start seeing the cracks
Told me once to go back
Your dirty ways are creeping back
And you're thinking about
Moving on with somebody else

You can leave if you want to
You can throw it all away
And when she leaves you stranded
You realize what you had
No, you ain't gonna forget that
You get what you give back
Thought you had it all figured out
Go ahead and close that door
Cause there ain't no coming back
And you better not forget that
Uh, uh, uh, forget that
Uh, uh, uh, forget that
Na, na, na, forget that
Oh, forget that
Uh, uh, uh, forget that
Uh, uh, uh, forget that
Na, na, na, forget that

Acting like she's the one
But I know she'll never love you like me
Kiss you like me, hold you like me
But it's time to face the facts
Silly boy, you won't last
What goes around will bite you back
So make your move, it's up to you
I am sweating bad, oh

You can leave if you want to
You can throw it all away
And when she leaves you stranded
You realize what you had
No, you ain't gonna forget that
You get what you give back
Thought you had it all figured out
Go ahead and close that door
Cause there ain't no coming back
And you better not forget that
Uh, uh, uh, forget that
Uh, uh, uh, forget that
Na, na, na, forget that
Oh, forget that

Oh yeah, you better think about it
Can you really live without me?
You better think about it
Can you really live without me?
Woah, boy yeah

Uh, uh, uh, forget that
Uh, uh, uh, forget that
Na, na, na, forget that
Cause there ain't no coming back
And you better not forget that forget that
Uh, uh, uh, forget that
Uh, uh, uh, forget that
Na, na, na, forget that
Cause there ain't no coming back
And you better not forget that
