

I Believe

Paulini

Don't you know?
You're my everything
My precious stone
My sweet escape
Don't you think?
That one mistake
Could ever make me turn and walk away

Even though you think that bridge is bent
Let's take it slow
Cause the fall might hurt
Hurt my pride
And that's enough for me
My dignity can take a ride

Cos I...
I believe, I believe, I believe in the power of truth baby
I believe, I believe, I believe in you baby
Life's about the simple things
Kindness and compassion bring
I believe in love and understanding

Stand toe to toe
With the velvet glove
Push comes to shove
And there's no giving up
Even when the world and what it seems to be
A rose is still a rose to me

Cos I...
I believe, I believe, I believe in the power of truth baby
I believe, I believe, I believe in you baby
Life's about the simple things
Kindness and compassion bring
I believe in love and understanding

Don't you know?
Nothing this matters
From the study no one wanted to see
You're a light
You're inspiration helps me, helps me to make it right

Cos I...
I believe, I believe, I believe in the power of truth baby
I believe, I believe, I believe in you baby
Life's about the simple things
Kindness and compassion bring
I believe in love and understanding

I believe in you!
