

Hey lady, what do you need?
Do you think you'd like to come and bleed with me?
I'd like to invite you to a taste of my chalice
It's a special one, it's made of gold
Passed out, passed out on your couch
You left me there, thank you
Let me sleep it off, I need to sleep it off
I need to sleep, why don't you let me?
I need to sleep, why don't you?
I need to sleep, I need to sleep I need to sleep
I need to sleep, why won't you let me?
I need to sleep, I need to sleep, I need to sleep
Why won't you, why won't you let me sleep?
The jam kids on the Vespas
And glum looks on their faces
The street is full of punks
They got spikes
See those rockers with their long curly locks
Goodnight to the rock n' roll era
'Cause they don't need you anymore
Little girl, boy, girl, boy
Their composures are so distracted
Jaspers skinny arms
And the dance faction
A little to loose for me
Every night it's straight and narrow
Laws are broken, amusing era
Round and round and round
And round she goes
Pull out their plugs
And they snort up their drugs
When they pull out their plugs
And they snort up their drugs
Their throats are filled with
