

Mellow Jazz Docent

Pavement

When they fall in They fall in from the roof They grab on to me
tightly As if I knew the way When I fight for something I fight
because I care When I fight with you I fight but I don't care

Everybody wants the questions to be asked The questions are the
answers To questions in themselves Ask me if I really need it
Ask me if you want to get hit Hit it

Ask me if you want to be...fucked.
