### Pavement

Sherri, you smell different  
Get up early in the bed, for you morning comes so easy  
Spells have been cast and the urge has been lost  
Snipers posted bills, as they should, of our midnight vacation

Back on the planet now  
I'm beginning to see just how  
Echelon your dreams and they'll come true  
Type slowly

One of us is a cigar stand  
And one of us is a lovely blue incandescent guillotine  
The edge of creation is blurred and blushed  
Not a lot of room to grow inside this leather terrarium

People of the bay  
It is excruciatingly gray  
Face the front when he comes for you  
Type slowly

Cherish your memorized weakness  
Fashioned from a manifesto  
Lady, I am no futurist  
I'm my only critic, I

Trolls in the glen are consorting again  
The liberals say they don't exist, but I know that they do

Reinforce your literal ass  
Hit it on the first or second pass  
Frozen images, respected few
