

## Here And Now

Pawbeats

People suck at everything and I need someone  
I've lost my faith in this crazy world  
Have it overload?  
Only when I'm with you  
Even looking at you  
Makes me wanna find myself again  
Simple words you choosing  
Simple jokes we share  
Brought the essence to  
My loneliness  
My loneliness

So please just let me say I'm sorry  
Why don't we leave the past behind  
So nothing's gonna break the night  
We can celebrate that here and now  
Like a last drop of water  
Or a spark in the dark  
Will you be my saver just last time  
Last time

Better pay no mind to people  
Why don't we leave the past behind  
So nothing's gonna break the night  
We can celebrate that here and now

People suck at everything and I need someone  
I've lost my faith in this crazy world  
Have it overload?

So please just let me say I'm sorry  
Why don't we leave the past behind  
So nothing's gonna break the night  
We can celebrate that here and now  
Like a last drop of water  
Or a spark in the dark  
Will you be my saver just this time  
Last time

We can walk at night time  
Leave no trace behind us  
Bring the essence to our lonely lives  
Coz only when I'm with you  
Even looking at you  
Makes me wanna find my way
