Pay money To my Pain

Yeah!

Inside my mind I find my downside  
Always start to hurt somebody else  
I give up, this feeling never goes away  
Without hope, it means nothing to me

I just wanna be free from your hand

This is my life  
Don't decide, I'll make my choice  
Someday I'll reach the sky  
Now I know I won't fall again

God gave burdens, also shoulders  
Then tell me why the people kill themselves  
Release me from your upper hand  
You show yourself just only one time, after I die

I just wanna be free from your rage

Where that come from?

Live in lies, I can't stand to more  
There's no way to disappear  
So I cry as hard as I can

I will fight for freedom I want  
I will fight for freedom that's all I want

Inside my mind I find my downside  
Always start to hurt somebody else  
I give up, this feeling never goes away  
Without hope, it means nothing to me

This is my life  
Don't decide, I'll make my choice  
Someday I'll reach the sky  
Now I know I won't fall again

This war will last forever  
Temptation is not a solution  
I'm free from any desire  
Take my soul if you can  
From me
