

Innocent in a silent room

Pay money To my Pain

You were all that I saw
But you said that i was blind
Now i know what you meant
To me

There were words I should've said
There were things I wish i'd done
(I) wasn't who I could've been
That's why I'm here alone

I know why left me then
I know why you hurt me so
You set me free, you let me leave
I've never felt this pain

In time I'll let it go
Someday I'll be ok
Just gotta know, I'll make it through
I know what you did for me

Don't look down, take a step
Time to wake up from your dream?
Ive been gone so far
I know

There is something I don't know
That I am really supposed to know
When you were mine I remembered them
But now I'm on my own

Just let me outta here
Too quiet in my room
So many times I've made mistakes
And I know this is wrong

In this small silent world
I just can't make any noise
From time to time
I wanna quit
But maybe not today
No not today

What if I say, I give this up
Would you still call my name
The game is over
We're outta line

Can't rewind passing time
Not even you
Don't you ever feel
None of us are innocent

Have you realized
You're one of them
I know why left me then
I know why you hurt me so

You set me free, you let me leave
I've never felt this pain
In time I'll let it go
Someday I'll be ok

Just gotta know, I'll make it through
I know what you did for me
I know why left me then
I know why you hurt me so

You set me free, you let me leave
I've never felt this pain
In time I'll let it go
Someday I'll be ok

Just gotta know, I'll make it through
I know what you did for me

Just try to see it my way
