

Do You Believe In Love

Peabo Bryson

They say that fools believe in magic
Well, I've always been a fool
I've heard that love was always tragic
But I've got faith in you
I've got faith in you

I've got my pride back in my pocket
Through your eyes I see the truth
Ten thousand fears could never stop it
You can pull me through
You can pull me through

If you believe in love
(Believe, believe in love)
If you believe in love
(Believe, believe in love)
If you have faith enough
If you believe in lovin'

Believe in love
(Believe, believe in love)
Oh-whoa, believe in love
(Believe, believe in love)
You've got to have faith enough
Do you believe in lovin'

Whoa-oh-oh-oh-oh-oh...
You can pull me through
Oh, you can pull me through

Believe in love
(Believe, believe in love)
Oh, believe in love
(Believe, believe in love)
You've got to have faith enough
Do you believe in lovin'

I've got faith in you
'Cause I've got faith in you

Believe in love
(Believe, believe in love)
Mama said, darling
Believe in love
(Believe, believe in love)
Have faith enough
You've got to believe in lovin'...
