

Friction

Peabo Bryson

I can feel the friction
I feel the fire burning inside of you
(Feel the fire)
Mmm, can you feel the friction
I couldn't feel the feeling if I wanted to
Whoa-oh-oh...

Loving you in a moment
Sweet ecstasy
We're getting higher naturally
(We're on a natural high)
Come on and turn down the lights
Come here close to me
The feeling is right, yeah, yeah
(Feel the friction)
(Feel the friction)
Feel it
(Can you feel the friction)
Feel it, yeah
(Friction)
Come on, you know it, you know it

Can you feel the friction
Well, I'm getting warmer
Wait 'til I get hot
(Feel the fire)
Yeah, can you feel the friction
(I feel the friction)
Please don't let it stop, mmm, yeah

Loving you in a moment
Lover's ecstasy
Taking us higher naturally
(We're on a natural high)
Come on and stay here tonight, yeah
Come here close to me
The feeling, the feeling is right
(Feel the friction)
I can feel it
(Feel the friction)
Yeah
(Can you feel the friction)
(Friction, I said, the friction)
Friction

Well, well, well
Lost inside a moment
A passion's ecstasy
Taking us higher naturally
(We're on a natural high)
Come on and turn down the lights
Come here close to me
The feeling is right, yeah
(Feel the friction)
Feel the friction
Yeah
(Can you feel the friction)

Feel it
(Friction, I said, the friction)
I can feel it

Lover's passion, fire burning
(I feel the friction)
Yes it is, y'all, feel, feel
(I feel the friction...)
