

# I Just Had To Fall

Peabo Bryson

I just had to fall in love again  
Though it was something I swore I'd never do  
Only took one look and I knew that I still love you

I thought it was over, we'd gone our separate ways  
Our romance had seen better days  
Yes, it was over, that was until today  
When by chance, I happened to see your face  
Suddenly, old feelings, they came over me

I just had to fall in love again  
Though it was something I swore I'd never do  
Only took one look and I knew that I still love you

I can remember why we said goodbye (goodbye)  
And I'm not gonna even try  
Having you near me makes me realize  
After all this time  
It's still you, no one else  
Girl, I can't help myself, oh

I just had to fall in love again  
Though it was something I swore I'd never do  
It only took one look and I knew that I still love you  
Oh, I just had to fall, had to fall in love

I just had to fall, fall in love  
(Fall in love) Fall in love (fall in love again)  
Only took one look and I knew that I still loved you, you

I just had to fall in love again  
Though it was something I swore I'd never do  
It only took one look and I knew that I still love you, baby, o  
h  
I just had to fall in love again  
Though it was something I swore I'd never do, never do  
I just had to fall in love again  
(Come here and listen, baby; girl, I really need you, baby)  
Fall in love, fall in love again  
I just had to fall in love again
