

# If You Love Me (Let Me Know)

Peabo Bryson

Yeah, ooh-ooh...

Too many lonely nights  
And too many tender words left unspoken  
Nobody's wrong or right  
Promises are made to be broken  
Falling in love can be a hurting thing  
Heaven above knows the joy that only love can bring

If you're still in love, let me know  
Every time I feel you  
Something comes over me  
If you're not in love, let me know  
I just want to hear you  
Say the words and set me free, free

Wasn't it you who said  
Love's supposed to mean forever  
But love isn't wrong to mistake  
'Cause forever doesn't mean together  
When you fall in love  
There's gonna be some joy and pain  
Heaven above knows for you I'd do it all again

If you're still in love, let me know  
'Cause every time I see you  
Something comes over me  
If you're not in love, let me know  
Before I really need you

Let me down easy, turn and walk away  
No one can love you more than I  
Baby, I'm the one, I'm the one

Just let me down easy, turn and walk away  
No one can love you more than I  
Baby, I'm the one, I'm the one

If you're still in love, let me know  
Every time I feel you  
Something comes over me  
If you're not in love, let me know  
Let me know  
I just want to hear you  
Say the words and you are free, free...
