

Life Goes On

Peabo Bryson

You stayed outside my heart
When all the time, you knew you could come in
Why make life so hard
For reality running after long lost dreams

Because life with you would be so precious
Life with you would be so grand
Baby, loving you would be like heaven
But we're down on earth you know
And with or without you, baby, life goes on

It didn't take much time
For me to realize you were the one for one
(The only one for me)
You made me feel so fine
That it didn't take very much for me to see

Girl, that life with you would be so precious
Life with you would be so grand
Baby, loving you would be like heaven
But we're down on earth you know
And with or without you, baby, life goes on

Baby, don't you know

Baby, life with you would be so precious
Life with you would be so grand
Baby, loving you would be like heaven
But we're down on earth you know
But we're down on earth you know

Baby, life with you would be so precious
Baby, life with you would be so grand
Baby, loving you would be like heaven
But we're down on earth you know
And with or without you, baby, life goes on

Life goes on, each and every day
Life goes on
(On and on and on)
Life goes on, even in the bad times

This whole world keeps turning
This whole love keeps burning, on and on
Life goes on, on and on
Each and every day
(On and on and on)
Life, life goes on
(On and on and on)
Life goes on...
