

# Man On A String

Peabo Bryson

Another day has come and gone  
In the city, yeah  
Somebody tryin' to stop me from livin' my life  
Free and easy

Snow gets stormy on Monday, hey, baby  
A month of Tuesdays super bad  
Save my soul on Sunday  
I found the best love I ever had  
Well, it's too bad

Just a man on a string  
(Just a man on a string)  
A revelation  
(Just a man on a string)  
Don't try to run my life  
(Just a man on a string)

Another trick before my eyes  
You sure could be a magician, yeah  
Many people saving their lives  
The master politician

Don't wait or run in the country, oh, well  
That's a funny kind of day  
Yes it is, yes it is  
Got no job and no money  
Is this the way you play the game  
It's a doggone shame

Just a man on a string  
(Just a man on a string)  
Face the nation  
(Just a man on a string)  
See what's on your mind  
(Just a man on a string)  
Mass relation  
  
(Just a man on a string)  
Are you on the line, yeah  
(Just a man on a string)  
I can't get no information  
(Just a man on a string)  
I better search and I better survive  
Yeah, yeah  
(Just a man on a string)  
For the people, saving their lives  
Just a man on a string
