

She's over Me

Peabo Bryson

I saw her today
We just met by chance
We smiled a lot not knowing what to say
'Cause you see, she's over me

I, I looked in her eyes
And saw enough to make me realize
It's dead and gone, I don't have a prayer
Of getting her back where she used to be
She's over me

We stood a minute or two
And talked like strangers do
Saying nothing at all
No one who saw us would know
That once she loved me so
I never dreamed that she would ever
Be the one to go, oh, no
She's got herself free
And now she's over me

She's over me

I kissed her goodbye
And that kiss killed every hope I held inside
It told me all that we had before
Was nothing more than ancient history
I can see
Well, it took her some time
But she's finally over me

I don't know what went wrong
But I know I'll spend my whole night long
Thinking of how good we were
She's over me
But I'll never be over her
