

# Slow Dancin'

Peabo Bryson

Come with me and I'll show  
You how making love can be  
You will see that it's here and now  
This is our destiny

We'll spend the night  
Darken the light  
While we're romancing, baby  
As we glide from side to side  
Slow dancing, oh, slow dancing

Come on right now, baby  
Come on right now

Close your eyes and drift away  
Into my fantasy  
Oh, don't ask why  
Just say you'll stay and I  
Will fulfill all your dreams

Let your mind drift into time  
While we're romancing, baby  
As we meet cheek to cheek  
Sugar, we're slow dancing  
Oh, slow dancing

Come on right now, baby  
Come on right now  
Slow dance with me

Sugar, sugar

Let your mind drift into time  
While we're romancing, baby  
As we meet cheek to cheek  
Oh, sugar, we're slow dancing  
Oh, slow dancing

Oh, slow dance  
Slow dance with me

Come on right now, baby  
Come on right now  
Come on right now, baby  
Come on right now

Slow dance with me  
Slow dance

Come on right now, baby  
Come on right now  
Come on right now, baby  
Come on right now  
Slow dance with me
