

# True Love

Peabo Bryson

Cards on the table, baby  
Speak your mind if you've got something to say  
I ask no questions and I tell no lies  
Don't let that stand in your way  
Killing me, my friends keep telling me  
Don't let a love break you down  
Wild and free, that's what you want to be  
But I don't think I'll be around

First you wanna be my lover  
Then you wanna be my friend  
I think we're fooling one another  
'Cause a friendship will end, but a true love will never die

True love will never die  
True love, whoa yeah yeah

Cards on the table, baby, don't be shy  
Give it to me straight from the heart  
I know the answers and the reasons why  
I guess I knew from the start

This is killing me, my friends keep telling me  
Don't let a love break you down  
Wild and free, that's what you want to be  
Well, I just might not be around

First you wanna be my lover, yeah yeah  
Then you wanna be my friend  
I think we're fooling one another

'Cause a friendship will end, but a true love will never die

True love will never die, no, no

Don't play these games with my heart  
True love is so hard to find  
Don't push too hard  
You might be the one losing this time

My friends all tell me 'don't believe her'  
She'll only tell you he's a friend  
But he still comes around to see her  
Well, a friendship will end, but a true love will never die

True love, true love will never  
True love, no  
This love is killing me  
First you wanna be my lover, lover  
Then you wanna be my friend, yeah  
But I think we're fooling one another  
Because a friendship will end, but a true love will never die

True love, true love will never  
True love, no

My friends all tell me 'don't believe her'

She'll only tell you he's a friend, yeah  
But he still comes around to see her  
Well, a friendship will end, but a true love will never die
