

You

Peabo Bryson

You, everything that's beautiful is you, you
You, with every breath I take, one is for you
You are the world to me
You found your way into my life
And taught me how to give
As if it were magic, love is all it is
Mother Nature's brew
Taught me how it feels to live
And if they'd should ever take
Your loving arms from me
How the hell would I survive
You're the reason I'm alive

You, my love
I want to write a song and call it you
You are a symphony
You, the sun could never rise without you
You are my life, yeah, yeah
An angel's face, heaven's eyes
You taught me how to live
As if it were magic, love is all it is
Mother Nature's brew
It makes me feel that I'm, I'm alive
And if they'd should ever take
Your loving arms from me
How the hell would I survive
I would barely be alive without you
