

Left Out

PEABOD

I think this calls for celebration (Uh, uh, uh, ya)

If it's my party everybody is invited
This ain't a clique or an in-crowd
Ain't nobody getting left out
Just be yourself and bring a friend and get excited (Yeah)
There ain't gonna be no doubts (Uh)
Ain't nobody getting left out

Yeah, ain't nobody getting left out, this is my house
Friends are what the sweet life is about, talk to Cole Sprouse
When I treat you like my twin, everybody wins
I see that grin, where you been? Let the night begin
I wanna make the circle too big to have fringes
Good community means kicking doors off they hinges
And if it gets cringey we'll hide like a ninja
I'ma lift you up like that's my boy Simba
You got fear of missing out, call it FOMO
FOMO can make a bro feel like he's loco
I rap in slow-mo to make sure you know though
SoDo to Soho, we in the same dojo
My God loves all of His children
All 7.61 billion
That includes you and that's a real good feeling
Makes me wanna dance 'til I can't tell the floor from the ceiling

If it's my party everybody is invited
This ain't a clique or an in-crowd (Okay)
Ain't nobody getting left out (No way)
Just be yourself and bring a friend and get excited (Yeah, yeah)
There ain't gonna be no doubts (Okay)
Ain't nobody getting left out (No way)

Everybody check your cool at the door
We don't care about your status, you don't need it anymore, nah
Everybody let loose on the floor
If you dancin' with the stars or if you never danced before
Listen, I have never been the best dancer anywhere
But I bet that I have more fun than anyone who cares
When everybody's dancin' no one's got the time to stare
No one's watchin', now go dance like it, that's a dare
To clear the air, there's a voice in your head, admit it
Telling you to hold the wall up instead, I get it
But let me tell you somethin' good about voices
Listenin' to them is only one of two choices
Nobody in this room dance like you
So make up your dope signature move
If we all groove we can make the whole earth shake
Shout out to my saints, go ahead and take a praise break

If it's my party everybody is invited
This ain't a clique or an in-crowd (Okay)
Ain't nobody getting left out (No way)
Just be yourself and bring a friend and get excited (Yeah, yeah)
There ain't gonna be no doubts (Okay)
Ain't nobody getting left out
On your feet everybody!

If it's my party everybody is invited
This ain't a clique or an in-crowd (Okay)
Ain't nobody getting left out (No way)
Just be yourself and bring a friend and get excited (Yeah, yeah)
There ain't gonna be no doubts (Okay)
Ain't nobody getting left out (No way)

Ohhhhh-ohh, whoa
There ain't gonna be no doubt
Ain't nobody getting left out
Mmm, mmm
(Mmm-mmm-mm, mm)
Ain't nobody getting left out
