

Magic Hour

PEABOD

During the summer round here
The days don't end 'til almost 10pm
The sun's not setting early
It's not in a hurry
During the summer round here
The trees stay green, the water gleams aquamarine
The rain was worth it
To have something so perfect

Baby that's you
You're my endless summer
Don't gotta ask me how I feel
But if you ever wonder

Magic hour
Every color's bright and true (bright and true)
It's like a magic hour
Every second I'm with you (here with you)
The sky is pink and violet
All the world is quiet
When you're in my view (in my view)
It's like a magic hour
Every second I'm with you
Every second I'm with you
Every second I'm I'm I'm

This is more than interest
Focused and meticulous
More like photosynthesis
You say I'm ridiculous
But I'm serious about you
I get delirious without you
Baby I'm snow bird
Fly around the globe for months
Until I know you're a little closer
And time moves slower

Baby that's you
You're my endless summer
Don't gotta ask me how I feel
But if you ever wonder
Look at the moon
'Cause even in the night
I'm still soaking up all the goodness
From your summer eyes

Magic hour
Every color's bright and true (bright and true)
It's like a magic hour
Every second I'm with you (here with you)
The sky is pink and violet
All the world is quiet
When you're in my view (in my view)
It's like a magic hour
Every second I'm with you
Every second I'm with you
Every second I'm I'm I'm

Sunlight on my face
Let me stay, let me stay (It's always been you)
Baby you're like sunlight on my face
Let me stay, let me stay (And it always will be, and it always will be)

Magic hour
Every color's bright and true (bright and true)
It's like a magic hour
Every second I'm with you (here with you)
The sky is pink and violet
All the world is quiet
When you're in my view (in my view)
It's like a magic hour
Every second I'm with you
Every second I'm with you
Every second I'm I'm I'm

You're like sunlight on my face
Let me stay, let me stay
Baby you're like sunlight on my face
Let me stay, let me stay

You're like sunlight on my face
Let me stay, let me stay
Baby you're like sun
