PEABOD

What you're going to hear about today is nothing short of a miracle  
Here's to you, sweetheart  
Yup  
Yeah  
Yeah, yeah, yeah

I'm a little bit distracted, I go back and forth  
Anytime the beat is lackin' I tend to get bored  
Sometimes my thoughts just get so loud that they can't be ignored  
I'll keep my head up in the clouds until my neck gets sore  
I got dreams and fears and bigger feelings than I bargained for  
They can knock me out or make me move my feet through open doors  
Sometimes I swim out so far I don't wanna swim no more  
Lucky for me I got a girl who points me back to shore  
She got a good head on her shoulders  
With the wisdom of somebody older  
She let the Lord Jesus mold her  
Don't think her fire will ever get colder  
She got my back like a soldier  
Even when I'm like a rollercoaster  
I run my mouth like a motor  
But I know I love her so you bet I told her  
Probably a hundred times in the first day that I said it out loud  
Probably a thousand times in the first week 'cause I'm just so dang proud  
I found someone who knows the solid ground in a shaky world  
You'll say, "Wow, go give that queen a crown," and I'll say  
"That's my girl"

Steady-y-y-y-y-y-y-y  
Even when life gets messy  
Even when I'm not ready  
Steady-y-y-y-y-y-y-y  
When all the world is heavy  
I know my girl is steady  
Steady-y-y-y-y-y-y-y  
Even when life gets messy  
Even when I'm not ready  
Steady-y-y-y-y-y-y-y  
When all the world is heavy  
I know my girl is steady

Got up my courage and I asked her to go steady with me  
Fast forward, now it's been a year? My goodness, time moves quickly  
Even when weeks went by when we were stuck in different cities  
You showed me time and time again that loving you ain't risky  
You gotta be the prettiest girl on earth  
But you only flirt with me  
You would probably make gold question its worth  
But you'd never hurt nobody  
You show me just how this grace thing works  
Even through the dirt you've seen  
Dang, I love my steady introverted favorite human being  
Her love is strong like a current  
But I still held onto my burdens  
I felt like I wanna earn it  
But I had to go and relearn it  
My girl, she got good discernment

Said love ain't 'bout stacking up sermons  
This fire ain't built by my workin'  
It's already there and it's burnin'  
This is too good to be true, bein' with you is the best thing  
Got me feeling like I'm new, it's just the greatest blessing  
You help me see that Jesus ain't 'bout earning or impressing  
How sweet it is to know I'm loved and there's no second guessing
