

# Summertime

PEABOD

Yeah  
All right  
Yeah  
Okay

Oh, somebody pinch me 'cause there's no way that I'm not dreaming  
Don't you wake me if I'm sleeping, it's just too good to believe in  
Seein' you is as important to my well being as breathin'  
Girl you know that I'm schemin', making everything a reason  
We can be in close proximity, baby won't you come sit next to me?  
My heart is beatin' heavily, whenever you are textin' me  
I know it's cool, we met at school, got no excuse  
When I see you I act a fool  
But if we play this right it could be cool

If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime

Every time I get a little bit of somethin' real  
I can never go back to work, I can never go back to chill  
Like heaven whenever she flirts, and I can hardly even deal  
But real talk, its gonna hurt if she don't feel the way I feel  
But I gotta say, you got a vision girl  
Lookin' like a man on a mission girl  
Listen I've be fishin' and wishin' you wouldn't keep your distance girl  
So I'ma treat you like royalty, you spoil me  
If water's me, other girls are oil see, that's loyalty

If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime  
If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime

So if we play this right, I guarantee it'll be radical  
Take a break from your stresses, impress ya with the sabbatical  
You and me equals two, in addition I'm mathematical  
Bad at actin' a fool and these lyrics are all too practical  
Passable as a rapper but life's the motivation  
Finally reboundin' from two summer's vacation  
I'm back baby, we can make this rap pick up the slack  
Maybe make a couple tracks, pick our feet up and just relax baby

If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime  
If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime  
(Hey, we need some more Jacob!)

Why doncha make your way over and we can do what we wanna do  
See what we wanna see, I'm down for whatever  
We can just cruise, and be free  
And abuse the car's speakers, blast Beatles and blow a fuse  
Confuse the people on the street, thinkin we're just fools  
Walk a different beat, we don't need the rules  
We got somewhere else we gotta be  
So long auf wiedersehen, my farewell is off the brain  
I'm long gone like a song yong  
We signing the song ohhh

If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime  
If we play this right we could be together by the summertime  
The summertime  
When I say it like that it feels like forever till the summertime  
The summertime
