

# Young Forever

PEABOD

I don't wanna grow up  
Tell me that it ain't so  
I just wanna be young forever  
If I gotta grow up  
Is there a place I can go  
Where we'll always be young forever  
I miss the days when life was simple  
If I could I'd run it back  
I ain't gonna grow up  
I won't ever grow old  
I'm just gonna be young forever  
Young forever  
Young forever

Yea, still remember collecting them GI Joe's  
Ninja turtles from the shows, Chicago bulls on my clothes  
Thanking God that it's Friday  
Full house don't try me  
Pizza with the bros  
So you know we bout to party  
Just make it back before the lights come on  
But now I'm worried bills make sure the lights come on  
Man adulting got me exhausted, child-like, I lost it  
God when I get to heaven, can I just back to seven cuz

I don't wanna grow up  
Tell me that it ain't so  
I just wanna be young forever  
If I gotta grow up  
Is there a place I can go  
Where we'll always be young forever  
I miss the days when life was simple  
If I could I'd run it back  
I ain't gonna grow up  
I won't ever grow old  
I'm just gonna be young forever  
Young forever  
Young forever

Use to flex on my friends with those holographics  
Switched from real to pretend it was automatic  
Got a bit older might have grown up too much  
Weight on my shoulders tryna make me give up  
But I love that kid I used to be  
And I know that kid will root for me  
93 till infinity life is astronomic  
Green and gold on my caps and somebody bring back the sonics  
Comic books in my hooks yeah I rock with that  
Every gift from above yea I walk with that, yeah

I don't wanna grow up  
Tell me that it ain't so  
I just wanna be young forever  
If I gotta grow up  
Is there a place I can go  
Where we'll always be young forever  
I miss the days when life was simple

If I could I'd run it back  
I ain't gonna grow up  
I won't ever grow old  
I'm just gonna be young forever  
Young forever  
Young forever
