

Figure 8

Peach Pit

Come to think of it she said
Would you help me lace em up instead
The weed I had is workin'

From the shoreline in the snow
I can tell you want me out there so
Riding til it's hurting

You've set me up now
Watch her as she pirouettes
Watch her figure 8
With that style
All good things of it
Are most likely gonna go
Watch her skate away

Why am I your baby
As though you wanna play me away like that
Said you're never cold on the dark side of the road
It's your fav there in fact
Would you wanna know if I'd say you'll never go in at full impact
Always on the break as your calming a mistake
With your slow pacing back

Come to think of it he said
You preferred if I would just pretend
To hold you there as baby

From the photos of you though
I've a longing to go back there so
Right until it's fading

You've set me up now
Watch her as she pirouettes
Watch her figure 8
With that style
All good things of it
Are most likely gonna go
Watch her skate away

Why am I your baby
As though you wanna play me away like that
Said you're never cold on the dark side of the road
It's your fav there in fact
Would you wanna know if I'd say you'll never go in at full impact
Always on the break as your calming a mistake
With your slow pacing back
With your slow pacing back

Come to think of it she said
Would you help me lace em up instead
The weed I had is workin'
