

Look Out!

Peach Pit

Lookout, I'm throwing it
About have too
Or I'd crawl right through this phone to get to you, my girl
All I ever wanted was your peace of mind
If it's hard to catch you hanging round my little shoebox, fine
You know how I love to unwind

Lookout, I'm stoned again
Lookout, I'm good
Wading my way through this neighbourhood
It's all just my ordinary passing
Today I take it in
Then Dinesh is there like everyday to ask me how I've been
He knows how I love to give in

Lookout for me won't you though
I just might pass you by
Out here tonight
Would you like me to go?
Along my way, without me even saying hello

Lookout, I'm slow again
About us two
There I sat just looking at the fool I've been
If my heart was beating louder
You'd hear it breaking in
But it's only something real
If you don't know where I've been
Just know babe it's hard to give in

Lookout for me won't you though
I just might pass you by
Out here tonight
Would you like me to go?
Along my way, without me even saying hello
