

Yasmina

Peach Pit

Yasmina, grab me there beside ya
Don't ever wanna say you're anything but mine-a
I've found loving you to be so very easy
And though I know, you may go
I'll be damned not to try and be

Yasmina, keep me in your head
Don't have anybody else a-living there instead
Won't you let me be most of your time
You could spend your days over at mine
If you can't it's fine
I'll be dying
What is it that you've done to me?

When you're gone, I can't let you go
When you want me, I'll set you so
Let me know that I'm yours today
I won't have it no other way

Yasmina, grab me there beside ya
I don't ever wanna say you're anything but mine-a
Found loving you to be so very easy
And though I know, you may go
I'll be damned not to try and be

When you're gone, I can't let you go
When you want me, I'll set you so
Let me know that I'm yours today
I won't have it no other way

Yasmina, grab me there beside ya
Don't ever wanna say you're anything but mine-a
