

Kinda Famous

Peach PRC

Know your favourite pair of jeans
I lay them out when you leave
Making breakfast, coffee black
Receipts told me you like that

So I was thinking Spring, silver wedding rings
House with tyre swings
And I've picked out all our baby names
Changed your picture frames to my face

Ok, now obsessed, you're kinda famous
Your name on my chest, you're kinda famous
Don't wanna be friends, you're not a phase
I know you don't know me yet, you're kinda famous

Your name on my chest
You don't know me yet
Don't wanna be friends
You don't know me yet

My obsession, know you well
Better, more than yourself
CCTV, smile and wave
Then bathe in your aftershave

So take me up backstage
I know all the names of every song you played
And one day you'll write about us too
I can be your muse when we say "I do"

Ok, now obsessed, you're kinda famous
Your name on my chest, you're kinda famous
Don't wanna be friends, you're not a phase
I know you don't know me yet, you're kinda famous

Your name on my chest
You don't know me yet
Don't wanna be friends
You don't know me yet

You're gonna love me if you know me
You're gonna love me soon enough
You're gonna love me, know you can
Because I'm your biggest
I'm your biggest fan

Ok, now obsessed, you're kinda famous
Your name on my chest, you're kinda famous
Don't wanna be friends, you're not a phase
I know you don't know me yet, you're kinda famous
